

Road Reinforcement

American Road Patch

Contains, strengthens, and seals potholes, cracks, and utility cut repairs

Product Overview

American Road Patch embeds into the roadway forming a waterproof seal, extending the life of repairs. Unlike traditional methods, American Road Patch is a cost-effective product that properly contains, strengthens, and seals potholes, cracks, and utility cut repairs – while keeping water out!

Features & Benefits:

- Easy to apply - no special trucks or equipment needed
- High-strength fiberglass grid reinforced
- Bonds to both asphalt and concrete
- Patented technology
- Plow resistant
- Complete repairs without shutting down the roadway
