

Insect Screen

Small Insect

Better protection from tiny insects such as no-see-ums, gnats, and sand flies

Product Overview

Tighter fiberglass mesh protects against no-see-ums, gnats, sand flies, and other tiny irritating insects. As a premium screen product, Small Insect Screen is tested using ASTM D3656 standards.

Benefits

- Tighter weave creates extra small openings, making it more difficult for small insects to pass-through
- Great choice to use for window screens, screen-in porches, or to enclose pools
- Durable PVC coated polyester screen mesh creates a long-lasting window screen that you can enjoy for years

Specifications
