

Insect Screen

Pollen Guard

Allowing air to flow in, while keeping dust and pollen particles out

Product Overview

Pollen Guard screen is designed to block up to 50% more particles than standard fiberglass insect screen. This screen is a unique polyester knit fabric that creates a barrier for most pollen, dust, and other allergen particles, making it ideal for allergy sufferers. Pollen Gaurd screen allows air to flow in while keeping dust and pollen particles out.

Benefits

- Unique polyester knit design traps particles while still allowing clean air to flow through
- Perfect for window screens and door screens, or for screening patios and porches
