

Paintable

## Novelio® Classic EasyFix

Novelio® Classic EasyFix fiberglass wall coverings feature a self-adhesive layer, so there's no need for glue or the use of a water activation machine.

### Product overview

The easy to apply wall covering offers a 30% saving in total installation time, as the self-adhesive layer can be applied directly on the wall or ceiling. This includes 20% reduction in working time, and also a day of glue drying time, as well as a material saving of 7 kilograms of glue for a 15m<sup>2</sup> room.

As with all products in the Novelio® Classic range, the impact resistant wall finishes offer durable protection of the wall, and are ideal for crack prevention, crack covering and abrasion resistance. What's more, the Novelio® EasyFix fire resistant wall covering is easily washable and re-paintable, offering fast wall renovation.

- Time saving: 20% of working time, 1 day of drying time (glue)
- Material saving: 7 kg of glue for a 15 m<sup>2</sup> room
- Durable protection of the wall with 2 layers of acrylic paint
- Fast wall renovation
- Easily washable & re-paintable
