

ADFORS

Geomembrane Reinforcement

Your Partner for Innovative Textiles

Saint-Gobain ADFORS

ADFORS has been developing technical textiles for more than thirty years. Our strength is utilizing high-tenacity yarns to create innovative, cost-effective materials that offer superior structural reinforcements with less bulk and weight.

Superior reinforcement technology

ADFORS is a leading supplier of reinforcements to the geomembranes market. The quality and reliability of our solutions are second to none and will provide your products with:

- Tear strength
- Puncture resistance
- Tensile strength
- Dimensional stability
- Flexibility
- Excellent adhesion characteristics
- Wide web scrim capabilities

Our breadth of products, technologies and capabilities offer the ideal solution for your reinforcement requirements.

Our ADFORS team works closely with our customers to build a partnership and assist in product development to help make your membranes lighter, stronger, more durable and cost effective.

ADFORS has the capability to combine fabrics, chemistries, and nonwovens to meet your unique needs. We build something new every day.
