

NEW YORK WIRE

EXTRA STRENGTH SCREEN

NEW & IMPROVED

Stronger screen for a longer life

Stronger ideas for a sustainable world

Choose New York Wire's Extra Strength Screen for ultimate strength & durability.

New York Wire Extra Strength Screen is our strongest fiberglass screen. The Extra Strength Screen's heavy weight weave is 40% stronger than standard fiberglass mesh providing greater protection and long-lasting durability while offering excellent outward visibility. As a premium screen product, Extra Strength Screen is tested using ASTM 3656 standards.

Features and benefits of Extra Strength Screen include:

- Longer lifespan than standard screen
- 50% stronger than standard screen after 1000 hours of weather exposure
- Perfect for large windows, doors and other high usage areas that need extra protection against active pets and young children
- Easy to install
- New York Wire screen is leading the industry by offering a complete line of ortho-phthalate free screen

Extra Strength screen is available in DIY pre-cut and 100' contractor rolls. Each pre-cut roll comes with simple step-by-step instructions for easy installation. New York Wire .140" spline is recommended for the best fit in a standard frame.

Extra Strength Screen FAQ's

When would I use Extra Strength screen over standard Fiberglass screen?

Extra Strength Screen is most useful in areas where more strength is needed such as wide openings, or anywhere that children or pets may bump into.

What is the difference between Extra Strength Screen and Pet Resistant screen?

Extra strength screen is made from Fiberglass yarn and was specifically engineered to perform well in large openings. Pet Resistant screen is made from a flexible polyester yarn that helps resist tears from animal claws.

Does a stronger screen mean that it is more difficult to see through?

No. In addition to increased durability, New York Wire Extra Strength Screen offers excellent outward visibility.

What is new and improved about this product?

NYW Screen is now ortho-phthalate free and does not contain any substances covered under California Prop 65. We have maintained the same great aesthetics, properties and processibility that our screen has always had. We have also now achieved GREENGUARD Gold certification on this product, which certifies that the product has low chemical emissions.
